President Should Launch Inquiry Into The CIA

Editor of the Press Herald:

Since reading the Allen-Scott report relative to the withholding from the Warren Commission by the CIA of material pertaining to the Kremlin policy of assassination of Western officials, I would suggest that it is time for President Johnson to give a long, hard look at the membership of the CIA, and find out why such vital information in the files of the CIA was not given to the Warren Commission.

It would seem that one of the main functions of the CIA would be to warn those most concerned (our top government officials) at once when information of this sort comes into their hands so that more protection could be provided for our officials. Having the information hidden in CIA files is not doing anyone any good.
